PROFILE

Dedicated Software Engineer with a proactive approach to problem-solving and a proven track record of success in fast-paced environments. Proficient in Ruby on Rails, TypeScript, and JavaScript, with expertise in leveraging the Angular Framework to build robust client-based web applications. Committed to collaborative teamwork and delivering high-quality solutions that align with project goals and exceed expectations.

SKILLS

- | | | |
|---|---|---|
| • Solutions Deployment and Implementation | • Proficient in Ruby on Rails framework for backend development | • Version Control using Git and GitHub |
| • Database Programming and Management (SQL, PostgreSQL) | • Experience with Angular framework for frontend development | • Task and Project Management with Jira |
| • Unit Testing and Test-Driven Development (RSpec) | • Proficient in TypeScript for frontend development | • Scrum Methodologies and Agile Development Practices |
| • API Creation, Integration, and Management | • Strong command of JavaScript, HTML, and CSS for web development | • Mentorship and Team Leadership |

TOOLS

- | | | |
|----------------|--------------------|-------------|
| • Git/Github | • CircleCI | • TablePlus |
| • Jira | • CodeClimate | • AWS |
| • Atom/VS Code | • Postman/Insomnia | |

PROFESSIONAL EXPERIENCE

You_Source Inc.

March 2019 - March 2024

Software Engineer

- Developed robust and scalable web applications using Ruby on Rails for the backend and Angular for the frontend, ensuring high performance and user satisfaction.
- Implemented comprehensive test suites using RSpec to ensure the reliability and stability of backend code, adhering to best practices in test-driven development (TDD).
- Utilized Git and GitHub for version control, maintaining clean and efficient codebases while collaborating with team members on projects.
- Managed project tasks and workflows efficiently using Jira, ensuring clear communication and effective project management throughout the development lifecycle.
- Effectively works with clients, users, and team members to develop functional and non-functional system requirements.
- Mentored junior developers and interns, providing guidance on software development best practices, code reviews, and troubleshooting techniques to foster professional growth and enhance team performance.
- Served as a scrum master during scrum meetings, facilitating effective communication, sprint planning, backlog grooming, and retrospectives to optimize team productivity and project delivery.

EDUCATION

Polytechnic University of the Philippines Sto Tomas
B.S In Information Technology

2015 - 2019
